Alarm can be shut off temporary for the day or permanently shut off.

- 1) When alarm goes off, press the ALARM OFF (5) button to turn off for the day. The alarm will repeat at the same time the next day, if alarm setting has not been changed.
- 2) To shut the alarm off permanently, slide the Alarm Function Switch (11) down to the OFF position.

NOTE: The Alarm Off function of Alarm 1 and Alarm 2 is independent of each other.

To Select Wake up mode -

To select the wake up mode, slide the Alarm Function Switch (11) to your desired position: -

- a) BUZZ for sound (Alarm Sound is user selectable)
- b) VIB for bed shaker
- c) VIB/ BUZZ for both sound and bed shaker

NOTE: once the wake up mode is chosen, this will apply to both alarms.

To Select Alarm Sound

To select the alarm sound, slide the Alarm Sound Selector (12) to your desired setting.

The user can select between, two built-in sounds, the standard buzzer sounds, as well as their own recordings.

Recordings

To make your recording, press and hold the Record (19) button 1 sec, then make your own recording. (10 sec)

To playback your recording, press the Play (19) button.

Alarm Patterns -

When the alarm is activated, alarm pattern of the buzzer / flashing display will be out of sync with the vibrator. This means that when the buzzer / flashing display is ON, the vibrator will be OFF and while the buzzer/ flashing display is OFF, the vibrator will be ON.

ALARM 1 - When Alarm 1 is active, the buzzer will beep 3 times, then the vibrator will be on.

This pattern is repeated until the alarm is stopped.

ALARM 2 - When Alarm 2 is active, the buzzer will beep 4 times, then the vibrator will be on.

This pattern is repeated until the alarm is stopped.

Adjusting the Alarm Duration Time -

The default alarm duration time setting is 30 minutes; you may adjust the alarm duration between 1 minute and 59 minutes as desired. To adjust the alarm duration:

- * Press and hold the AL. SET button (7) for six seconds. The clock display will show the default alarm duration as '30'. Release the AL set button.
- * Press the SLOW button (10) to adjust the alarm duration to the desired setting, from 1 minute to 59 minutes.
- * When the display is showing the desired alarm duration time, it will return to the normal clock mode after 3 seconds. The new alarm duration time setting becomes the new default and remains in the memory until you change it again.

Adjusting the Snooze Time -

The default snooze time setting is 7 minutes but you may adjust the snooze time between 1 minute and 30 minutes as desired. To adjust the snooze time:

- * Press and hold the SNOOZE Button (8) for two seconds. The clock display will show the default snooze time '7'. Release the snooze button.
- * Press the SLOW Button (10) to adjust the snooze time to the desired setting, from 1 minute to 30 minutes.
- * When the display is showing the desired snooze time, it will return to the normal clock mode after 3 seconds. The new snooze time setting becomes the new default and remains in the memory until you change it again.

Dimmer Operation -

There is a 5-level brightness control for the LED display. In normal time mode, press the SNOOZE button (8) once to change the display brightness setting. The brightness will cycle from bright to dim then from dim to bright. (5 being the brightest, 1 being the dimmest).

NOTE: The dimmer function will not work, when the clock is in snooze mode.

Sleep Function -

You may use the sleep function to listen to the music on while you go to sleep. It will automatically shut itself off after a specified time.

- 1) While in the normal time mode, a short press of the Sleep (10) button to select the desired timer. There is a choice of 90, 60, 45, 30, 15 (minutes).
- 2) After the preset time is up, the unit will turn itself off.
- 3) The night light will also light up during the sleep function. This night light will also turn off after the timer is up.

AUX Input -

This clock can also be used as amplified speaker for another device.

- 1) First use a 3.5 mm male to 3.5mm male cable, one end connects to the AUX (16) at the back of the clock and the other end to the 3.5mm earphone jack of the source.

- 2) Play the music from the source, the music will be amplified through the speaker of the clock.

Volume & Tone Control-

- 1) To adjust the volume, rotate VOLUME wheel (18) located on the lower right corner of the clock.
- 2) To adjust the TONE, turn the TONE wheel (14) located on the top right corner of the clock.

Bed Shaker / Vibrator -

- 1) Attach the bed shaker jack to the back of clock at VIBRATOR INPUT (13).
- 2) To turn on vibrator slide Alarm Function Switch (11) to VIB/BUZZ or VIB position.
- 3) Place vibrator between mattress and box spring.

Battery Backup -

To use the battery backup, you can install a 3-volt coin battery, CR2032 in the base of the clock (). During a power failure, the backup battery can only keep the clock IC running for up to 30 days. **NOTE: During a Power failure, the LED display will not show the time.**

NOTE: For the best result, it is recommended that the battery be changed every 6 months. If the clock is not used for a while, it is recommended to remove the battery to avoid damage to the clock from battery leakage.

Power Input (DC5V)

Attach the DC power cord to the back of the clock labeled DC5V (17).
