Welcome!
Congratulations on bringing home the SVS Prime Wireless SoundBase, a stunning achievement in sound quality and home audio connectivity. We know you are eager to start playing so this Quick Start Guide will walk you through the various controls and connections and get you on the fast path to enjoying high-resolution wireless streaming of your favorite playlists and music services.

**Included Accessories**

- Power Cord
- Source & Preset Control
- Front Panel Display
- Play, Pause & Volume Control
- Headphone Output

---

**Source & Preset Control**

Rotate the knob to change the input. Press the knob to select a preset (after they are programmed).

---

**Front Panel Display**

LED backlighting indicates the selected audio source (Wi-Fi, Bluetooth, Optical or Aux/Line) and preset (1-6).

---

**Play, Pause & Volume Control**

Rotate the knob to adjust volume. Press the knob to pause/unpause.

---

**Headphone Output**

Connect headphones for private listening.

---

**Connecting Speakers to Prime Wireless SoundBase**

1. Connect Left and Right speaker cables to +/- terminals on your loudspeakers.
2. Connect speakers to matching Prime Wireless SoundBase Left and Right +/- terminals via bare wire, banana plugs or spades.

---

**Connecting Prime Wireless SoundBase as a Source for an A/V Receiver or Preamp**

1. Connect RCA interconnect to proper input on AV receiver or Preamp Input.
2. Connect opposite end of RCA Interconnect to SVS Prime Wireless Soundbase RCA Output.

---

**Setting Up Wi-Fi and the DTS Play-Fi App**

1. Search “Play-Fi” and download the free DTS Play-Fi app to unlock the full functionality of your SVS Prime Wireless SoundBase.

2. Download Play-Fi App

3. Start Prime Wireless SoundBase Wi-Fi Setup Mode

4. Configure Play-Fi App

**Start Prime Wireless SoundBase Wi-Fi Setup Mode**

Once powered on, the Prime Wireless SoundBase will automatically go into Wi-Fi setup mode, indicated by a rapidly blinking yellow light on the rear panel. When the blinking light slows down, it’s ready to connect. Wi-Fi connection is confirmed when yellow light remains on permanently.

**Configure Play-Fi App**

Open the Play-Fi app and follow the prompts to finish setting up your Prime Wireless SoundBase on your home Wi-Fi network.

---

**Notes**

- iOS users must go to the "Settings" -> "Wi-Fi" and connect to “PlayFiDevice...” like you would a normal Wi-Fi network.
- Android users skip to step 4.

---

**Once your Prime Wireless SoundBase is set up, you can access music from your devices and your favorite streaming services. You can also enjoy full resolution Critical Listening Mode Critical Listening Mode, create a multi-room audio system, and more.**
Connections and Controls

1. L/R Speaker Binding Posts
   Connect speakers via speaker cables or wire.

2. L/R AUX In
   Connect any stereo source that has a left and right stereo analog output.

3. 3.5mm AUX In
   Connect to headphone outputs of smartphones, tablets or other audio devices.

4. Service
   For firmware updates and for powering or charging USB devices.

5. In/Out Network
   Connect standard Ethernet cable for hard-wired Internet connection.

6. Sub Out
   Add a subwoofer using standard audio interconnect cable (not included) or the optional SVS SoundPath Wireless Kit.

7. L/R AUX Out
   Connect Prime Wireless SoundBase as a source for an existing device like an AV receiver or Preamp.

8. Optical In
   Connect sources with optical digital outputs such as a TV or game console.

9. Wi-Fi Setup
   Puts Prime Wireless SoundBase into Wi-Fi set-up mode and shows status of wireless connection. Blinking yellow light indicates set-up mode, solid light means it's set-up and ready to use.

10. Bluetooth Setup

11. AC Power Cord Input
    100-120 / 220-240V~, 50 / 60Hz, 300W

Create Custom Presets

Up to six presets are available for instant access to your favorite streaming music channels, playlists and other content.

1. From the Play-Fi app, start the streaming service you want to set as a preset.
2. Press the left control knob to select which preset you want to set (1-6). Each press will move to the next preset.
3. When desired preset number is selected, press and hold the preset knob for three seconds. The preset number will flash several times then stay on to confirm, and music will resume playing.
4. Follow instructions above for the remaining five presets.
5. You can now access your favorite content by pressing the left knob to toggle through your presets at any time.

To reset a preset, repeat the steps 1 - 5.

NOTE: It takes a few seconds for the preset to connect to music services from your Wi-Fi network. This is normal.

Connecting Devices via AUX and Optical Inputs

1. Connect your device to the Optical In or L/R AUX In inputs or the AUX In on your Prime Wireless SoundBase.
2. Select the input by rotating the left control knob - the source will be displayed on the front panel.
3. View Bluetooth settings on your smartphone or tablet and select "SVS AMPLIFIER...
4. Confirm pairing when the light stops blinking and remains on. You can now stream music services and audio content from your device any time you select Bluetooth as your source.
