

**Remanufactured GM
6.2L / 6.5L Injectors
From DTech**

DTech now offers 6.2L / 6.5L remanufactured injectors. All injectors are completely disassembled, cleaned, surfaces are lapped, and the body is blackened. A new OEM valve is used in each injector. Pressures are set to factory specifications. All injectors come with the nozzle gasket and protective cap.

Part number DT650001R covers model years 1992 - 2000 6.5L Turbocharged engines, and can be identified by an orange external o-ring.

Part number DT650002R covers model years 1994 - 1997 6.5L Non-Turbocharged and model years 1991 - 1993 6.2L Non-Turbocharged, and can be identified by a purple external o-ring.
