

We partner with the world's leading manufacturers of connectors, relays, sensors, circuit breakers, and other parts vital to your business.

For over a quarter of a century, Chief Enterprises, has believed in doing more. Doing more means understanding the products that we sell, upholding a higher-standard of quality, creating solutions to suit our customers' needs and taking just as much care in building relationships with those same clients.

And to our customers, partners, and suppliers, that makes all the difference.

Chief Enterprises, Inc. designed and manufactures its own line of IP67 sealed power distribution modules, fuse holders, and accessories for the on and off-road OEM. Branded as the BRIC® (Breathable & Robust Interconnection Center), our modules are tested for the harshest environments and are equipped with industry demanded features such as a hydrophobic vent and an extremely small footprint. Unlike the competition, Chief's on-staff engineering provides frontline technical and quality support including design-in services.

For nearly 125 years, Bosch has been the world's largest independent parts supplier to the automotive industry; offering robust German-engineered low-way connectors, ECU high-way connectors and pin headers, sensors, injectors, throttle bodies, motors, pumps, and fans.

TE Connectivity is the world's leading manufacturer of automotive relays and high voltage products. TE leads the world by providing a wide range of innovative relay products that are of consistently high quality.

Amphenol Sine Systems is an industry leading manufacturer of high-performance interconnect systems for heavy-duty markets. With the capability to design and create custom connectors and cable assemblies, Amp Sine has been providing quality, cost effective products for 50 years.

Mechanical Products is America's leading manufacturer of high amp circuit breakers and offers main or supplementary protection for a variety of products and equipment in the commercial, defense, marine, and transportation markets.

Headquartered in Bursa, Turkey, Segger Horns has a notable reputation as a producer of superior quality and cost effective vehicular components for over 25 years. While meeting all necessary EC and ESE standards, Segger supplies electromagnetic, electronic, and air horns.

E-T-A is the industry leader in circuit breaker protection manufacturing high quality plug-in type 1, 2 and 3 circuit breakers as well as switch and circuit breaker combinations for over 60 years.

With over 30 years of experience, A.E.C Srl focuses on application equipment components for cable harnesses. Chief is partnered with A.E.C to distribute sealed modular ground terminals and more.

VTE Inc. has been producing high quality terminal insulators for protection against electrical shorts and shock for over 30 years. VTE also offers a complete line of terminal busbars, power posts, fuses, and fuse holders that comply with industry and safety standards.

MRS Electronic specializes in automotive & speciality vehicle electronics as well as programmable CAN control systems, gateways, telematics, and displays. Chief is an authorized distributor of the Microplex CAN I/O Controller, a device that has the ability to turn a standard fuse box into a "smart" fuse box.

Founded in 1984, Hongfa is one of the world's leading relay manufacturers known for their exceptional quality and innovation. The Hongfa product offering includes automotive, signal, latching, and power relays.

Let Chief do more for your business.

Chief Enterprises, Inc. | 545 West Lake St. Elmhurst, Illinois | www.chiefent.com | 630-530-1224

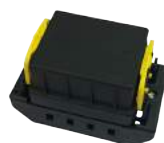

We are a premier provider of electrical components for OEMs and their suppliers in the transportation industry and peripheral markets.

We are more than a source for the best parts — we are parts specialist. Our experienced team works with you to find the best solutions for your specific needs, even if that means customization through our value-added services.

CONNECTORS, TERMINALS & SEALS

- Kompact, Trapezoid and JPT Low-Pole Connectors
- Dust Caps for Bosch Kompact & BAK Series Connectors
- High Pole Headers and Connectors
- DuraMate™ Multi-Pin Thermoplastic Connectors
- High Voltage Connectors
- Terminals & Wire Seals
- Crimping & Extraction Tools
- Custom Pigtails & Harnesses
- Sealed Modular Ground Terminals

POWER DISTRIBUTION & CIRCUIT PROTECTION

- Sealed Power Distribution Modules- BRIC®
- Inline Bussing Solutions
- ATO Fuse Panels & JCASE® Holders
- Relay Sockets
- In-Line and Stand-Alone Fuseholders
- Plug-in, Switchable & High Current Circuit Breakers

RELAYS & SOLENOIDS

- Micro & Ultra Relays
- Mini, Weatherproof & Time-delay Relays
- HCR 75,150 & 200
- High Voltage Contactors
- Battery Disconnect Switches (BDS)
- Maxi Relays
- PCB Relays
- Solenoids
- Marine Rated Relays

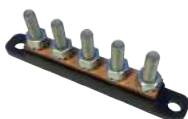

PROGRAMMABLE CONTROLLERS

- MicroPlex CANbus Controllers
- CAN PLC Controllers
- CAN Gateways - LIN, CAN, Serial
- HMI - Touch Panels and Displays
- Graphical Programming Tools

MOTORS & PUMPS

- Wiper, Window & Seat Motors
- Fractional HP Motors and Gearmotors
- Recirculation Pumps and Valves

JUNCTION BLOCKS, STUDS & BOOTS

- Junction & Busbar Blocks
- Junction, Pass-Through & Jump-Start Studs
- Custom Blocks and Studs
- Insulator Boots

ENGINE / EV MANAGEMENT

- Sensors- O2, temperature, pressure, air mass, etc.
- Throttle Bodies
- Injectors
- On-board Battery Chargers
- Battery Management

AUDIBLE WARNING DEVICES

- Disc and Fanfare Horns
- Air Horns
- Solid State Horns
- Back-up Alarms

VALUE-ADDED SERVICES

- Assemblies, Pigtails, Extension, and Speciality Harnesses
- Electrical & Mechanical Modifications
- Kitting, Labeling & Laser Marking
- Product Procurement
- Warehousing & Logistics
- Design-In Services & Testing Coordination
