

Ford 6.4L Valve Cover Gasket + Service Tip

DTech now has available the valve cover gasket, part number DT640002, for the 2008 – 2010 Ford 6.4L Power Stroke applications.

SERVICE TIP:

Replacement of a molded rubber valve cover gasket is recommended whenever there is visible physical damage or the sealing bead height has decreased by 5% or more. Installing new valve cover gaskets help insure a leak free valve cover installation.
