## NEW DIPACO REPLACEMENT PARTS FOR CATERPILLAR FUEL SYSTEMS.

---

DIPACO has available several new parts for Caterpillar 3208 and 3406 fuel systems. Following are the parts, their application, and current price.

### **D6N9987 & D6N9988 Solenoids**

The D6N9987 is a 24 volt fuel shut down solenoid used in 3208 industrial applications. The D6N9988 solenoid is 12 volt used primarily in 3208 truck applications. The D6N9987 replaces the 7N8884, 7N8885, and 7N8886 solenoids. The D6N9988 replaces the 6N3749, 7N8883, and 9N1068 solenoids.

### **D1P2298 Check Valve**

This valve is used in the 7N1364 flange assembly on the 3208 pump.

### **D4W0788 Hand Primer Pump**

This is the service group number for the fuel priming pump. This pump is used with both 3208 and 3406 fuel systems.

### **D7N1220 Plunger and Barrel**

This plunger and barrel is used in 3406 fuel pumps.

### **D1W3010 Plunger and Barrel**

This is the 8.5mm plunger and barrel used in turbocharged 3208 applications.

### **Pricing**

<b>PART</b>	<b>DESCRIPTION</b>	<b>LIST</b>	<b>DEALER</b>
D6N9987	Solenoid	61.63	52.27
D6N9988	Solenoid	60.41	50.18
D1P2298	Check Valve	.72	.59
D4W0788	Hand Primer Pump	44.73	24.80
D7N1220	Plunger and Barrel	80.25	49.88
D1W3010	Plunger and Barrel	36.41	26.25
