

EUI Nozzle Assemblies For Caterpillar 3406E

DIPACO
DIESEL
PARTS
U S A

DIPACO is introducing two additional nozzle assemblies for Caterpillar 3406E EUI applications. The new assembly numbers are **RTF41926/31** which is used in the current 10R2780 injector and **RTF41936/31** which is used in the current 10R2782 injector. Part number **RTF41906/31** has been available and is used in current injector 10R0957 and 10R2781.

The nozzle design, while slightly different from the OEM, has been proven in over two years of operation on-highway trucks. The nozzle assembly is complete and ready for installation with a preset VOP and needle fit.

RTF41906/31 Applications

Current Injectors	Superseded Injectors
-------------------	----------------------

0R0957	0R4894
10R2781	0R9257
	102-2014
	103-4562
	109-5021
	117-0482
	118-8010
	118-9030
	140-8993
	191-3003
	211-3023

RTF41926/31 Applications

Current Injector	Superseded Injectors
------------------	----------------------

10R2780	0R4118
	0R4668
	0R4893
	102-6230
	117-1148
	118-9035
	191-3004
	211-3024

RTF41936/31 Applications

Current Injector	Superseded Injectors
------------------	----------------------

10R2782	0R4332
	0R4895
	109-5038
	118-7929
	118-9027
	211-3022
