

**Parts Kit for Cummins AFC Pump Air Fuel Control**

---

Many Cummins AFC pumps in service have had their air fuel control (AFC) parts removed. With vehicle smoke testing becoming more prevalent, these pumps now need to have the AFC parts installed in order to meet the smoke testing standards. DIPACO has created a kit, part number DPE10045, that includes all of the parts needed to add the air fuel control back into an AFC pump. The parts contained in the DPE10045 kit are listed below.

<b>QTY</b>	<b>PART NUMBER</b>	<b>DESCRIPTION</b>
1	DS16240	Snap ring
1	DS213A	Nut
1	DS251	Nut
3	D70704	Washer
1	D68061A	O-Ring
3	D70772B	Screw
1	D214150	Washer
1	D3001707	Shim
1	D3013810	Piston
1	D3013811S	Bellows
1	D3015520	Cover
1	D3018655	Spring
1	D3021068	Barrel
1	D3021676	Plunger
1	D3023088	Spacer
1	D3023171	Center bolt
1	D3042542	O-Ring
1	D3044942	O-Ring
1	D3045986	O-Ring
1	D3066914	O-Ring
