COMPRESSION WASHERS FOR CATERPILLAR 7000 SERIES INJECTORS

DIPACO has available compression washers for use with 7000 series nozzles. These washers are made of a copper material. The prior compression washers were made of nylon and could lose some thickness due to installation pressure and operating temperatures. The washers are also color coded for easier identification. Caterpillar recommends replacing the compression washer and the carbon dam seal, part number D9L9098, every time a nozzle is pulled from an engine. Compression washers and the carbon dam are also available in DIPACO minor repair kits for 7000 series injectors. See DIPACO Product Information Bulletin FI-24, June, 1991, for more information. One washer, part number 7W4487, is the same size as 7W4485. To simplify your stocking, we have substituted D7W4485 whenever 7W4487 is used. Following is an application guide for various injectors.

INJECTOR	WASHER	COLOR
8N7001	7W4485	Copper
8N7002	7W4485	Copper
8N7003	7W4486	Purple
8N7004	7W4485	Copper
8N7005	7W4486	Purple
8N7006	7W4483	Red
8N7007	7W4485	Copper
4W7011	7W4485	Copper
4W7012	7W4482	Green
4W7013	7W4482	Green
4W7014	7W4482	Green
4W7015	7W4482	Green
4W7016	7W4485	Copper
4W7017	7W4485	Copper
4W7018	7W4482	Green
4W7019	7W4482	Green
4W7020	7W4482	Green
4W7021	7W4482	Green
4W7022	7W4482	Green
