

Thousands of facilities trust SimpleAnalyzer™ as a critical component of their reimbursement and clinical strategy. With its powerful new array of PDPM tools, you'll be prepared for success under the new payment model.

- ✓ **Forecast PDPM reimbursement.** Predict PDPM revenue based on current data and compare PDPM vs. RUG outcomes
- ✓ **Gauge PDPM impact by facility.** Explore your current MDS data to highlight areas of clinical complexity and exposure to risk.
- ✓ **Create a PDPM-centric workflow.** Manage coding and MDS workflow via the software to achieve ideal staff communication and training.
- ✓ **Optimize ICD-10 coding practices.** Analyze primary and active diagnoses to ensure clinical compliance and maximize reimbursement.
- ✓ **Proactively avoid audits.** Get pre-transmission insights to avoid audits, improve PDPM compliance and optimize revenue.
- ✓ **Track and optimize IPAs.** Understand reimbursement impact to ensure proper IPA protocol (available after Oct. 1).

## SimpleAnalyzer™ for PDPM

*Powerful, predictive tools to help you survive and thrive under the new Patient-Driven Payment Model*
