

## JCASE® Holder

AVAILABLE  
Q1 2017

### Three Position Holder for JCASE® Fuses

Complementing our line of power distribution modules and accessories, known as the BRIC®, Chief now offers an IP67 sealed JCASE® fuse holder. With our superior design, customers will enjoy tool free, snap-fit mounting and optional hydrophobic vent. It's compact build allows for the utmost versatility and convenient output connection through compatibility with a commonly used connector.

### Specifications

<b>Dimensions:</b>	87.3 (stud to cover) x 34 x 64.25 mm
<b>Number of Cavities:</b>	3 positions for JCASE® Fuses
<b>Temperature Range:</b>	-40 to 125°C
<b>Electrical Load:</b>	Up to 50A Per Fuse (Continuous)
<b>Mating Connector:</b>	*Delphi Metri Pack 630 3-way

### Competitive Advantages

- IP67 Water & Dust Protection
- High Strength Reinforced Body
- Optional Hydrophobic Vent
- Tool Free, Snap Fit Mounting
- Extremely Small Footprint
- M6 Stud for Power Input
- One-hand Cover Release
- Easy Output Connection

# Chief Product Portfolio

**Count on Chief Enterprises for customized components engineered to your specifications. We can deliver pre-assembled parts ready for you to install.**

Along with our JCASE® holder, Chief also offers a complete line of power distribution modules and accessories, known as the BRIC®, Mini ISO relay connectors, and ATO/ATC fuse holders.

### BRIC®

Chief designed and manufactures a series of IP67 sealed power distribution modules, branded as the BRIC®. The BRIC® houses 280 style components in three different configurations—24, 48, and 84 cavities.

### BRIC® FUSION

The BRIC® Fusion is a customizable PDM that houses both low and high amp components by way of ultra sonic welded inserts. The Fusion sports the same rugged build as the BRIC® 84-way and offers the same competitive features.

### BRIC® OPTIONS & ACCESSORIES

Options for the BRIC® family include terminal position assurance (TPA), cover position assurance (CPA), hydrophobic vent, and laser marking. Chief can also provide complete BRIC® harnesses, ready to install.

### BUSSING CONNECTOR

Chief offers a completely configurable bussing solution that simplifies wiring, while also preserving a fully IP67 sealed system. This BRIC® accessory eliminates the need for a busbar, saves space, and allows for infinite connection options.

### ATO/ATC FUSE HOLDER

With push-to-seat terminals and TPAs, our ATO/ATC fuse holder allows for maximum terminal retention and simple wire processing. Moreover, its compatibility with a commonly used cover makes retrofitting into existing designs a breeze.

AVAILABLE  
Q1 2017

### MINI ISO RELAY CONNECTOR

Our weatherproof Mini ISO relay connector features push-to-seat terminals and TPAs allowing for maximum terminal retention and effortless wire processing. It sports a built-in grip for easy relay removal and an optional hydrophobic vent to relieve pressure from component produced heat.

AVAILABLE  
Q1 2017

## Chief Enterprises is not your average distributor.

In addition to stocking a complete range of quality products from trusted manufacturers, Chief also offers value-added services, including production of pre-assembled components, customizable kits, and modification of existing products. What's more, our on-staff engineers have the ability to design and tool custom parts that fit your specific need. Contact us today and see how Chief can do more for your business.
