

2015 LFI Innovation Awards

PowerSecure Lighting is proud to announce that two of our products and one of our technologies were among some of the best and brightest to be recognized at the 2015 LightFair Innovation Awards.

The 2400-lumen LR38 PAR38 replacement lamp has the light output, lightweight and full-dimming capabilities of halogen incandescent sources, resulting in a high-performance product perfect for use in commercial, retail, hospitality and museum applications.
