

**Early + Late High
Pressure Oil Pumps
For Ford 6.0L Power
Stroke**

DTech now offers remanufactured high-pressure oil pumps for early and late Ford 6.0L Power Stroke applications. Part number DT600003R covers model years 2003 – 2004; part number DT600004R covers model years 2005 – 2010.

Installation hardware and a seal kit are included with each pump. Application information is shown below.

Service Tip: Prior to replacing the high-pressure oil pump check for proper oil level, base engine oil pump pressure, IPC sensor and IPR operation and pressure test the high-pressure oil system.

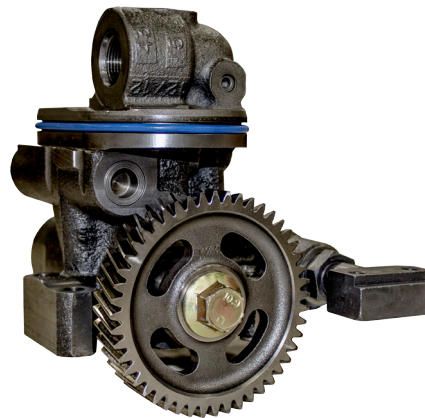

APPLICATION INFORMATION

HIGH-PRESSURE OIL PUMP			
Model Year	Application	OEM Number	DTech Number
