

**Injector For GM 6.6L  
Duramax LML Engines**

DTech has added the remanufactured Piezo-style injector for the GM 6.6L Duramax LML engine to their injector line. The part number is DT660034R.

Each injector comes with a new hold down bolt along with a new nozzle gasket, return connection and body o-rings.

These Piezo-style injectors are remanufactured to comprehensive DTech standards. Each injector comes with an IQA code that must be entered into the engine PCM when the injector is installed.

The DTech injector replaces OE part numbers 0986435410 or 19256590.

The injector is for use in LML engines, model years 2011 through 2016. The eighth digit in the VIN will be 8.

12693 Old Virginia Road
