

Position: Supply Chain Director

Location: Eden Prairie or Sauk Rapids, MN

Division/Department: Operations

Exemption Status: Exempt

Posting Date: July 11, 2017

Position Summary

Direct the company's overall global supply chain management strategies globally to maximize supply chain effectiveness, continuity of supply, cost savings, capital savings, process control, and scalability.

Responsibilities

- Define and implement comprehensive strategies for all aspects of Pinnacle's global supply chain to reduce costs, mitigate risk, improve quality, shorten lead times and reduce inventories.
- Provide exceptional leadership to the Supply Chain teams in the US and China. Create structure, hire/train staff, develop personnel, give direction, integrate/leverage global capabilities, and hold team members accountable.
- Collaborate with Product Management, Engineering and Operations to improve Product Lifecycle Management – spearhead sourcing initiatives to introduce products on time, on budget, and in stock while phasing out targeted products without premature stock-outs or end of life write-offs.
- Responsible for the performance of all OEM Factories as measured by quality, delivery, cost, capacity, and compliance.
- Challenge existing suppliers and OEM factories to upgrade their capabilities. Seek out future potential supply partners who can help Pinnacle advance to the next level.
- Build strong strategic alliances with internal and external partners to achieve key objectives.
- Continuously develop/enhance supply chain productivity and operational processes. Implement industry best practices for forecasting, sourcing, risk mitigation, inventory and vendor management.
- Compile, maintain and communicate a rolling 9-12-month forecast for global plants and OEM's. Work closely with Sales and Operations to determine capacity needs with enough lead time to realize it.
- Negotiate supply agreements with all global vendors and OEM factories. Create win-win cost-efficient partnerships that insure stable material supply to global plants and sales channels with terms and conditions that address cash flow challenges endemic to Pinnacle's business model.
- Direct multiple supply chain initiatives in a fast paced, high-volume, continuously changing environment. Leverage strategic leadership and global resources to maximize results.
- Advise executives on supply chain capabilities, constraints, and concerns that threaten quality delivery, costs, and lead times. Recommend short-term actions to mitigate impacts and long-term strategies to avoid reoccurrence.
- Develop supply chain effectiveness metrics and report regularly on supply chain performance, utilizing the metrics.
- Mentor and coach team members at all locations. Create succession plans for key positions and implement development plans for individuals identified to fill those roles in partnership with Human Resources.

- Perform other duties as assigned.

Skills and Qualifications

- Bachelor's degree or equivalent required. MBA is preferred.
- Minimum of ten years of progressive experience within Supply Chain
- Demonstrated negotiation skills to reduce costs, improve terms, conditions, and lead times.
- International and low-cost country sourcing experience required.
- Experience in a high-volume, high-mix manufacturing environment.
- Experience with stamping, metal fabrication, metal coating, plastic molding and electro-mechanical assembly operations preferred.
- Demonstrated leadership building/inspiring a strong, collaborative team across multiple sites.
- Minimum of five years of experience in a manager or director level role is required.
- Excellent verbal, written, analytical, negotiating, and interpersonal skills.
- APICS or Supply Chain Certification is preferred.
- Advanced ERP or MRP purchasing systems skills and knowledge

Reporting Relationship

- Reports to the VP of Operations
- Manages purchasing, materials and inventory management for China and Sauk Rapids plants

Compensation

- Competitive compensation based on qualifications and experience
- Benefits include healthcare, dental, vision, 401K, PTO, life and disability insurance, etc.

Working Conditions

Work is typically performed in a standard office setting. Periodic travel (every other month) to China and weekly travel to Sauk Rapids facility (1 time a week) is expected. Frequent supplier visits in the US and abroad will be required. May be required to work more hours than normal during a regular workweek depending on workload and deadline requirements.

The physical demands are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
