

## Cummins PT Governor Plunger Overspeed Components

**DIPACO**  
**DIESEL**  
**PARTS**  
**U S A**

DIPACO offers the D3801068 kit containing the overspeed components for use on governor plungers for V / VT903 engine applications. Use of these components on the V / VT903 applications will prevent seizure of the governor plunger during downhill overspeed operation.

1. D70690 drive tang
2. D3021488 thrust washer
3. D3066638 bearing spacer (replaces 3021490)
4. D3066637 thrust washer (replaces 3021489)

For more information see Cummins Service / Parts Topic 80T5-9A.
