

BimmerWorld Order # _____

Name _____

Differential Core Return Policy

Please return your differential core within **TWO WEEKS** to the following address:

BimmerWorld Core Return
c/o Diffsonline
190 Rear Main Street, Unit 1
Wilmington, MA 01887

Fill out your name and BimmerWorld order number (the six digit number in the subject line of your order confirmation email) at the top of this page and include it in your return shipment.

Important Notes

- Your core must be identical, for the same model, year, and fitment/options to the BimmerWorld differential ordered/received, including input and output flanges. Cores from models with factory limited slip options are required to be returned with the limited slip in place. All cores must be complete and in good working condition unless previously arranged at the time of purchase.
- Please **do not** include your differential cover with your core – it will be broken and the packager will ultimately be held responsible (you) – trust us on this one...
- When we receive your core, we will inspect it to ensure it can be rebuilt and issue a prompt refund of your core deposit.
