### Combination Gasket Sets for Caterpillar 3300 New Scroll and Sleeve Metering Fuel Systems

---

DIPACO has come out with consolidated gasket sets for Caterpillar 3304 and 3306 fuel systems. These kits are designed to reduce the number of gasket sets a fuel shop needs to stock. We have one kit for all 3304/3306 sleeve metering fuel pumps and one kit for all 3304/3306 new scroll type fuel pumps.

The **DPE3300SC** is for 3304 and 3306 new scroll type fuel systems. It includes all gaskets, o-rings, seals, washers, and locks needed for either a 4 or 6 cylinder fuel pump. This kit consolidates 7 different 3304 gasket sets and 15 different 3306 gasket sets into one gasket set.

The **DPE3300SL** is for 3304 and 3306 sleeve metering type fuel systems. Like the **DPE3300SC**, it includes all pieces needed for either a 4 or 6 cylinder pump. To compliment this kit, DIPACO has a 3304/3306 sleeve metering pump mounting kit, **DPE3300SLPM**. This kit includes the timing gear gasket, transfer pump housing o-ring, adapter o-rings, and 8 feet of fuel drain tubing. Separating the fuel pump kit from the pump mount kit allows us to add pump mounting pieces not part of the normal kits and gives you another sales opportunity with your customers.

We have also added 2 overhaul kits for the 3304/3306 sleeve metering pumps similar to our kits for the 3208 pump. The **DPE3300SLOH** includes the following pieces:

1	DPE3300SL	Gasket Set
1	DPE3300SLPM	Pump Mount Kit
1	D1P2298	Valve
1	D4N0605	Fuel Valve Spring
1	D4N2954	Camshaft Drive Sleeve
1	D4N3779	Key
1	D6D0238	Cock Valve
1	D7W6335	Bushing

The **DPE3300SLOHS** includes all pieces in the **DPE3300SLOH** plus the following pieces:

1	D4N1723	Flyweight Shield
1	D8N0628	Bearing
1	DPE17219	Riser Thrust Bearing Assembly
