Improved Cummins Flyweights Improved Throttle Shaft O-Ring

D146437 Flyweight

DIPACO has changed the material compound in the D146437 flyweight to provide for increased wear and durability. The improved weights have a shinier appearance than previous weights. These weights are used in Cummins PT fuel systems.

D100478 Throttle Shaft O-Ring

Following the lead of Cummins Engine Company, the compound used in the D100478 throttle shaft o-ring has been changed from viton to buna to provide greater durability under certain operating conditions.
