

Remanufactured Injectors For Dodge 5.9L Common Rail Applications

DTech offers remanufactured injectors for the Dodge 5.9L common rail engine. Part number DT590001R covers model years 2003 – 2004.5; part number DT590002R covers model years 2004.5 – 2007.

Each DTech remanufactured Dodge 5.9L injector features a new nozzle, new control valve assembly, and new internal / external seals. Injectors are backed by a two year, unlimited mileage warranty*.

In addition to injectors, DTech offers high-pressure injector connectors, a remanufactured CP3 fuel pump, brand new turbochargers, an injector installation kit, and more kit for Dodge 5.9L applications. View the current DTech Product Guide or visit the DIPACO / DTech website for more details.
