

Updated Caterpillar Plunger + Barrel Group Components

DIPACO
DIESEL
PARTS
U S A

A Caterpillar plunger and barrel (P+B) group is made up of a P+B, bonnet, check valve and spring and a retaining ring to retain the bonnet to the P+B.

The chart below shows the P+B groups along with their component parts. This allows replacement of the worn component(s) rather than use of a complete P+B group.

Compact + New Scroll Applications				
P+B Group	P+B	Bonnet	Check Valve	Check Valve Spring
108-6630	D108-6631	D108-2102	D4P7688	D8N5993
D108-6633	D108-2104	D108-2102	D4P7688	D8N5993
108-6634	D108-2104	D108-2102	4P9258	D8N5993
