Wellness & Healthy Living Solutions

Briggs Healthcare®

Trusted Brands Exciting Year Ahead

Briggs Healthcare® has been providing a broad range of wellness and healthy living products for children, adults, and seniors for over 40 years.

Our longevity is directly attributed to product innovation, continuous operational improvements and dedication to customer satisfaction.

Our Purpose

Today more than ever, we are committed to becoming the global leader of progressive Briggs Healthcare® products that:

- Promote wellness
- Help keep people active not only in their homes but on-the-go, at work, and at play
- Make healthcare fun at every age

This goal requires that we remain on the leading edge of developing products that are innovative, intuitive, and attractive to help monitor, manage, and maintain a healthy body and life.

Our Future

2014 will bring exciting announcements and new journeys for Briggs Healthcare®. To begin, we will realign our businesses to better service our unique customer mix. We will also be introducing a new service group with a new look, new packaging, new products and new ideas.

Along with our full commitment to the brands you have known for years, MABIS® and DMI®, we will be expanding the focus of the HealthSmart® brand to include new products, health and wellness educational pieces, and information about activities and lifestyle choices. We will continually provide the best possible product mix to help keep people well, active, and full of energy, at any age or stage in life.

We look forward to taking this journey with you and will be providing you with more information about these exciting changes over the next several months.

Briggs Healthcare®

Briggs Healthcare®

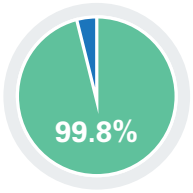
We pride ourselves on our customer service and delivering complete satisfaction is the priority for Briggs Healthcare®. Continuous improvements are the backbone of our company with core values that strive for operational excellence.

Quality – It's in everything we do

- Briggs Healthcare's® extensive warranties are testimony to our confidence in our products
- Our manufacturing and operating processes are ISO certified

Product when you need it, where you need it

- Briggs Healthcare® operates several distribution and manufacturing facilities across the United States to insure dependable delivery
- We supply internationally to six continents
- Our automated supply chain and execution software provides responsive, reliable delivery
- Our fill levels rank among the highest in the industry



Fill Rates
Based on 18 month average beginning 1/12

Outstanding Customer Service

Briggs Healthcare® is committed to delivering outstanding customer value by providing integrated support services. Our knowledgeable and courteous customer service representatives collectively have over 100 years of experience with our company. This team works together to provide personalized service with orders, product questions, merchandising assistance, and education.

Product Showcase

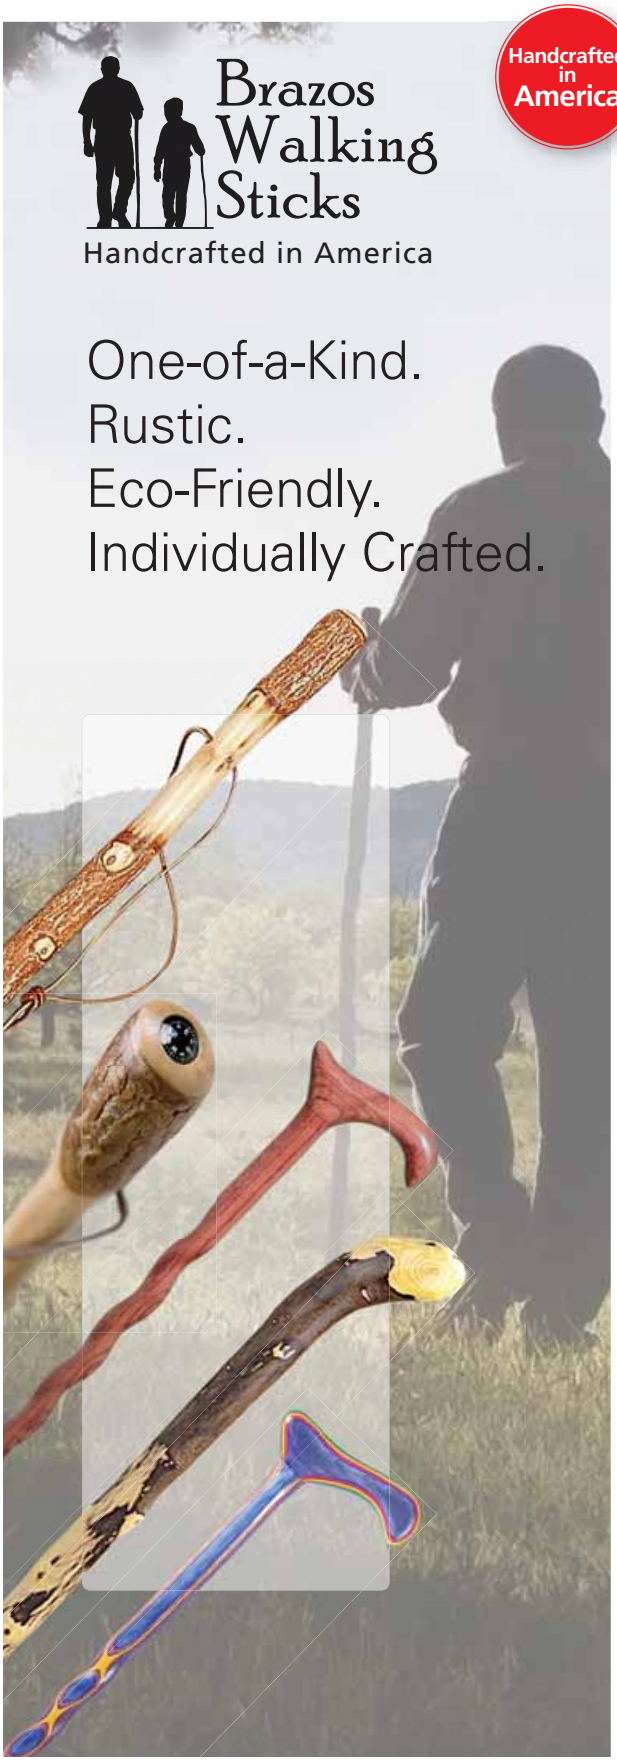
Brazos – Handcrafted in America



Introducing Brazos

Our new line of exquisite wood walking sticks and canes showcase the feel of nature with the quality of American craftsmanship.

Brazos Walking Sticks are produced individually in the beautiful Brazos River Valley area of central Texas. Every piece is handcrafted by artisans who have perfected the art of highlighting the intrinsic beauty of each wood. Most of the products are made in small, "cottage industry" workshops using local craftsmen who are also neighbors, family and friends.

Due to variance inherent in all wood, you can trust a Brazos Walking Stick or Walking Cane is truly one-of-a-kind. Each of the walking sticks is individually crafted from the finest woods including sassafras, hickory, sweet gum, iron bamboo, and many other exotic and native trees. Most of the woods are naturally harvested in the nearby areas of Arkansas, East Texas, western Louisiana, and the high mountain deserts of New Mexico.

To view our full range of Brazos products including additional heights, colors and woods, please visit www.brazoswalkingsticks.com

Brazos Walking Canes

- Each cane offers a unique beauty all its own due to the natural wood grain, color and signature twist
- Sanded and sealed finishes range from rough and rustic, to smooth and elegant
- Natural wood can be cut to desired height
- Slip-resistant rubber cane tip adds extra safety and security
- Most walking canes are available in 34", 37", and 40"

Choosing a Brazos Product

Generate incremental sales in 1 sq foot

Understanding the unique characteristics of each wood type is important to find the best-suited walking cane or stick. Please use this quick summary as a guide.

Wood Types

Hickory	Legendary for its strength & flexibility
Sassafras	Distinct and beautiful reddish bark with a spicy aromatic scent
Ironwood	Possesses the strength of hickory, but lighter in weight
Sweet Gum	Lightweight with even texture, dark bark and grain
Aromatic Cedar	Intoxicating aroma with red hues and cream-colored swirls
Oak	Popular light colored American wood with a prominent grain
Ash	Prominent light colored grain that resembles oak

Brazos Package Options

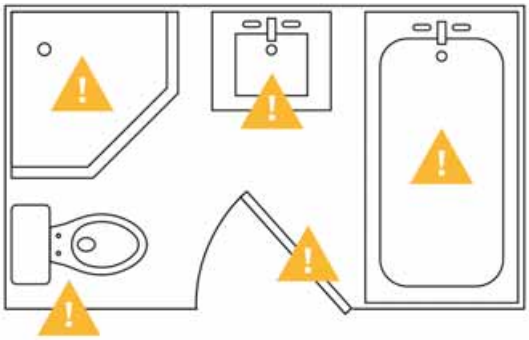
Staying Safe in The Bathroom

Bathroom "Hot Spot" Checklist for Safety



Bath safety products available for each "Hot-Spot":

Bath Tub/Shower
- ☐ Transfer Bench
- ☐ Bath Seat
- ☐ Removable Shower Head
- ☐ Bath Mats
- ☐ Grab Bars

Sink
- ☐ Grab Bars

Toilet
- ☐ Risers
- ☐ Arm Support Rails
- ☐ Grab Bars

Doors
- ☐ Expandable Door Hinges

Choosing The Right Bath Seat or Transfer Bench for You

Bath seats are ideal for users who may feel fatigue while showering, have difficulty bending over or have trouble maintaining balance. Transfer benches are great for users who cannot step in and out of the tub.

Elevated Toilet Seats & Risers

Temporary and permanent fixtures are available for those who have difficulty rising from and lowering to the toilet seat. The seat simply adds height to the current toilet seat.

Benefits of Grab Bars

Install grab bars by the toilet and in and around the bathtub for support while stepping in and out or standing up and down. Grab bars are available in a variety of finishes and lengths and can be mounted to the tub or wall. Suction cup grab bars are available for travel or temporary assistance and intended for balance.

Additional Options for Added Safety

- Bath Mats
- Hand-Held Shower Heads
- Long Handled Sponges

DMI® Heavy-Duty Sliding Transfer Bench with Cut-Out Seat

- Seat slides side-to-side minimizing physical strain on user or caregiver

HealthSmart® Premium Automatic Wrist Talking Digital Blood Pressure Monitor
04-895-001

"Nearly 75 million adults in the United States have high blood pressure, according to the American Heart Association. Briggs Healthcare's® comprehensive digital blood pressure features are Bigger, Brighter and Better to make blood pressure monitoring easy and accurate."

Digital Blood Pressure

HealthSmart® Digital Blood Pressure Monitors

HealthSmart

BIGGER.
BRIGHTER.
BETTER.

The New Standard for Blood Pressure

The Most Comprehensive Line of Digital Blood Pressure Monitors

HealthSmart® Digital Blood Pressure Monitors incorporate a variety of features and benefits to meet the wide range of needs of any person needing to monitor their blood pressure. Specialty blood pressure monitors are available, including Women's and Sports models.

Outstanding Features & Benefits

Extra-Large Backlit LCD
Easy to read extra large numbers with backlit screen.

WHO Indicator
Instantly shows people their measurement according to the standards set by the World Health Organization, which range from optimal to severe hypertension.

Irregular Heartbeat Detection
An easy-to-understand icon provides a visual cue if an irregular heartbeat is detected.

Memory Storage
Every model in the HealthSmart line features memory storage with date and time stamps. Some models allow for up to three users on one monitor.

Walking Aids

Category Overview

Walking Aids for Any Need

Choosing the Right Walking Aid

When people experience a fall, have surgery or have trouble with balance, a walking aid is the ideal solution to help keep them safe while still being independent.

Who should use a Walker or Rollator?

Walkers and rollators are ideal for people who need more stability than a cane offers. However, walkers and rollators are not ideal for curbs and/or stairs.

Who should use a Cane?

Canes are ideal for people who need help to improve balance and stability, or remove pressure from muscles or tendons after a surgery.

Who should use a Transport Chair/Wheelchair?

Wheelchairs and transport chairs are both designed to be pushed by a family member or caregiver. Transport chairs are smaller and more lightweight than a wheelchair and are much easier to fold and store.

Walking with your Rollator

Push the rollator slightly ahead of you. Step into the rollator one foot at a time. Repeat this pattern, and make sure the rollator is never too far in front of you.

How to properly fit your Rollator:

1. Wearing your shoes, naturally stand upright inside the rollator.
2. Put your arms to your side with a natural bend at the elbow.
3. Have someone measure the distance from your wrist joint to the floor. This is the height your rollator should be set at.
4. Place your hands on the grips. Your elbows should comfortably bend at a 15° angle.

Walking Aids

How to Properly Size a Cane

1. Wearing your shoes, naturally stand upright.
2. Put your arms to your side with a natural bend at the elbow.
3. Have someone measure the distance from your wrist joint to the floor. This measurement is the height your cane should be set at.

Note: If you cannot have someone measure for you, convert your height to inches and divide by two. Add a half-inch to this height. This number is the height your cane should be set at.

DMI® Adjustable Aluminum Canes

- Unisex design
- Constructed of strong, yet lightweight anodized 7/8" aluminum tubing with slip-resistant rubber tips

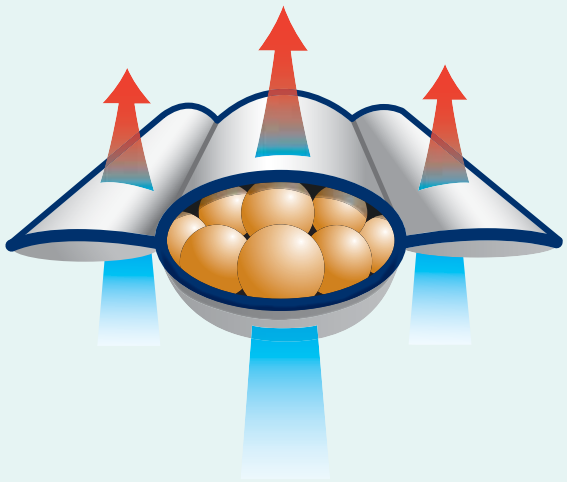
HealthSmart® Neck Pain Relief Pack
616-4505-0000

"Briggs Healthcare® supplies a variety of rehabilitation and hot / cold therapy products that meet multiple needs to help get back on the road to recovery. As always, our products are professional grade quality for high performance and durability in treatment, rehabilitation and emergency care."

THERABEADS®

THE BEADS DRAW MOISTURE FROM THE AIR AND RELEASE IT AS CLEAN, DEEP-PENETRATING MOIST HEAT WHEN MICROWAVED WITH NO NEED TO ADD WATER!



Why Moist Heat Therapy with TheraBeads®?

- The hydroscopic beads in every TheraBeads® product have a coating that enhances their ability to capture moisture
- When heated in a microwave, they release retained moisture
- Moist heat means maximum effectiveness; doctors recommend moist heat for its deep penetrating qualities
- TheraBeads® offer moist heat therapy for the treatment of arthritis, minor muscle aches, pains and sprains
- After treatment, TheraBeads® rejuvenate themselves by naturally recovering moisture from the air

HealthSmart® TheraBeads® Standard Pack

- Ideal for shoulders, knees and back
- Reusable microwavable moist heat therapy
