TENSION ADJUSTMENT

The BC-18 comes from the factory with a tension setting that is suitable for most support setups. But the Lock Lever can also be adjusted to apply more or less tension to the ball.

- 1 Position Lock Lever to the middle and insert hex key tool

For less tension, mount Lock Lever to the left of middle. For more tension, mount Lock Lever to the right of middle. Re-install screw; do not overtighten.

MAINTENANCE

General Care

Keep ball free of dust and grit. Do not lubricate the ball. Do not attempt to disassemble the BC-18 Ball Clamp

Clamp Maintenance

Our clamp delivers a lifetime of wear. However, from time to time, we recommend placing a drop of lubricant on the shaft to prevent binding. If you find that your clamp is not closing as smoothly as it used to, unscrew the knob to fully open the clamp and turn it upside down. Blow out any dirt or grit, and place a drop of lubricant on the threads.

GUARANTEE

ALL REALLY RIGHT STUFF BRAND PRODUCTS ARE GUARANTEED TO THE ORIGINAL PURCHASER TO BE FREE OF DEFECTS IN MATERIALS OR WORKMANSHIP FOR FIVE (5) YEARS FROM THE DATE OF PURCHASE. PRODUCTS WILL BE REPAIRED OR REPLACED AT OUR OPTION.

BC-18 POCKET 'POD PACKAGES

At only 7½ inches tall, our BC-18 Pocket 'Pod Packages are your best travel tool. Packages pair the BC-18 with one of our tabletop tripods: original TFA-01 or the TFA-01 Ultra with locking leg angles.

A RRS BC-18 Pocket 'Pod Package fits in your pocket but weighs less than 9 ounces. This mighty travel setup will amaze you. See our website for details and pricing.

BC-18 with B2-FABN

Mount the BC-18 Micro Ball on any RRS-style rail or bar by pairing it with our B2-FABN mini-clamp. This combo lets you place a small ballhead wherever you need it.

B2-FABN\$70

Prices subject to change.

BC-18 on any VIDEO ROD

Video Rod Support Systems typically use 15mm rods with industry standard ½"-13 female threading on each end of the rod. But most photography accessories, including our BC-18, are threaded ¼"-20. Use our "Video Rod ¼"-20 Adapter" and you can add a BC-18 Micro Ball to the end of any industry standard video rod.
