

Fuel Lines for GM 6.5L and Late 6.2L Engines With Mechanical Injection Fuel Pump

Now available from DIPACO are fuel injection lines for GM 6.5L engines that use mechanical fuel injection pumps. These lines have 14mm fittings on the injector end and 12mm fittings on the pump end and come with identification tags. For more information on fuel injection lines for GM 6.5L engines using DS injection pumps, see DIPACO Product Information Bulletin FI-105A.

Below is a list of the fuel lines and their location on the engine:

Part Number: Cylinder:

D14098631	1
D14098632	2
D14098633	3
D14098634	4
D14098635	5
D14098636	6
D14098637	7
D14098638	8
