

**Intensifier Pistons for Power Stroke and HEUI Injectors**

**DIPACO** has available the intensifier pistons for use on Ford Power Stroke and Navistar HEUI injectors. The chart below shows the intensifier pistons available for A and B body code injectors along with the intensifier piston OD and length.

Signs of a worn intensifier piston include wear on the outside diameter in the intensifier o-ring contact area and on the area inside the intensifier piston that is in contact with the plunger element which can cause incorrect flow.

Also, the availability of the intensifier pistons provide injector rebuilders the opportunity to change injectors from one body code to another.

BODY CODE	INTENSIFIER PISTON OD LENGTH	BODY CODE	INTENSIFIER PISTON OD LENGTH
AA	DPS13051/31 16mm 32.2mm	BA	DPS13052/31 16mm 29.7mm
AB	DPS13050/31 16mm 29.7mm	BB	DPS13052/31 16mm 29.7mm
AC	DPS13052/31 16mm 29.7mm	BC	DPS13052/31 16mm 29.7mm
AD	DPS13056/31 16mm 29.1mm	BD	DPS13055/31 17.5mm 29.3mm
AE	DPS13053/31 16mm 29.1mm	BE	DPS13057/31 16mm 29.1mm
AF	DPS13058/31 16mm 29.7mm	BF	DPS13054/31 17.5mm 26.7mm
		BG	DPS13054/31 17.5mm 26.7mm
		BI	DPS13054/31 17.5mm 26.7mm
		BJ	DPS13054/31 17.5mm 26.7mm
		BN	DPS13054/31 17.5mm 26.7mm
		BP	DPS13054/31 17.5mm 26.7mm
