

Fuel Lines for Early GM 6.2L Engines With Mechanical Injection Fuel Pump

Now available from DIPACO are fuel injection lines for early GM 6.2L engines. The lines are specifically for 1982 through 1988.5 years production 6.2L engines that use mechanical fuel injection pumps with 14045021 (NA50X) or 14059057 (NA52X) injectors. These lines have 14mm fittings on the injector end and 12mm fittings on the pump end and come with identification tags.

For more information on fuel injection lines for GM late 6.2L and 6.5L engines with mechanical injection pumps, see DIPACO Product Information Bulletin FI-175.

For more information on fuel injection lines for GM 6.5L engines using DS injection pumps, see DIPACO Product Information Bulletin FI-105A.

Below is a list of the fuel lines and their location on the engine:

Part Number: Cylinder:

D14050511	1
D14050512	2
D14050513	3
D14050514	4
D14050515	5
D14050516	6
D14050517	7
D14050518	8
