

**Nozzle Spring for  
Bosch Common Rail  
Injectors**

**DIPACO**  
**DIESEL**  
**PARTS**  
**U S A**

Now available from DIPACO is the RTFF00VC09023 nozzle spring used in many Bosch Common Rail injectors. In vehicle use, the nozzle spring load declines and eventually affects the operation of the injector. During injector repair, springs that have corrosion from water in the fuel or a spring load that is low need to be replaced.

Common North America Applications that use the RTFF00VC09023 nozzle spring include:

0445110162	0445120103
0445110181	0445120113
0445110193	0445120114
0445110217	0445120184
0445120008	0445120185
0445120018	0445120193
0445120027	0445120204
0445120032	0445120208
