

Repair Parts and Equipment for Caterpillar 3500 Unit Injectors

DIPACO now has repair parts and equipment for Caterpillar 3500 MUI Injectors including: nozzles, nozzle o-rings, and plunger and barrel. In addition we offer external injector o-ring kits for both 3500 MUI and EUI injectors.

For testing the MUI injector we have the RTF27000 Cam Box which, when mounted on the appropriate test bench, can drive the injector for testing.

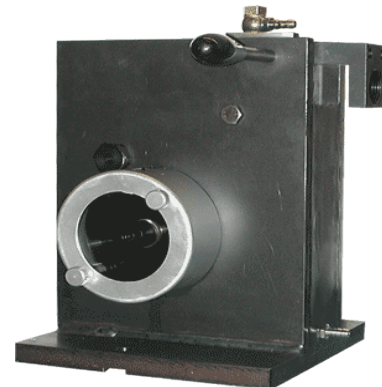

See below for additional application information.
