

New Repair Parts for DP200 Pumps

DIPACO now has available popular parts for repairing Delphi DP200 fuel pumps including the gasket set, blades, and solenoid.

The DIPACO gasket set, D7135-277, is a combination of the Delphi 7135-277A and 7135-277B gasket sets at a great price savings.

Below is a listing of the items initially available:

D7123-620	Filter
D7135-108	Blades*
D7135-277	Combination Gasket Set*
D7135-72	Roller and Shoe Kit
D7139-540	Transfer Pump Liner
D7185-900W	Solenoid

Please contact your DIPACO Territory Manager if there are other items you use in repairing these fuel pumps or any other parts suggestions.

** Item available late November 2006.*
