

Identification Sealing Paint

DIPACO carries a range of sealing paints in different colors. The sealing paint is ideal to use for identifying nuts, fittings, and screws you don't want tampered with on your next pump job - or any other job where certain fasteners should not be removed. The paint comes in 20 ml. tubes and comes with a plastic, twist-on dispenser for easy, mess-free application. See below for a list of part numbers and corresponding colors.

Part Number	Color
D40236	Blue
D40237	Yellow
D40238	Green
D40239	Red
