

## Updated Seal Kit For Ford 6.0L Power Stroke Injectors

DTech offers a seal kit for the Ford 6.0L injector, model years 2003 – 2010. Part number for the kit is DT600016.

The kit contains all of the seals and gaskets currently offered in our DT600015 kit, along with a retaining ring, high-pressure oil o-ring, and the internal and external o-rings for the electrical connector.

The kit services one injector. If you repairing large injector quantities, contact your DIPACO / DTech Account Manager for more options. All kit components are found below.

<b>DT600016</b>
