## **MULTI-PURPOSE, WATER BASED ODOR ELIMINATOR MALODOR COUNTERACTANT**

Removal of unpleasant odors is simplified with this product. This concentrated, water soluble deodorant does not merely cover up odors; it chemically neutralizes the odor causing molecules without leaving an over powering scent. It contains the fragrance that your nose detects, two re-odorizing agents and a sophisticated surfactant-emulsifier system. The unique formula continues to work to fight odors long after initial fragrance has dissipated.

Properly diluted, it can be sprayed directly on surfaces or fabrics without staining or leaving a residue. The versatile formulation allows its use in fire damaged facilities and eliminates odors due to smoke, vomit, urine, fecal matter, pets and cooking. This versatile product can be added to cleaning solutions to help eliminate odors as you clean or use alone diluted 1:20 for use as an all purpose cleaner.

### **FEATURES**

- Concentrated
- Institutional strength
- Malodor counteractant
- Pleasant fragrance
- Add to cleaning solutions
- Water based

### **RELATED BENEFITS**

- Economical to use
- Counteracts the most objectionable odors
- Neutralizes and eliminates odors
- Freshens the room
- Eliminate odors as you clean
- Can be used on fabrics without staining

### **AREAS OF USE**

Eliminates odors due to smoke, vomit, urine, fecal matter, pets, cooking and more

- Walls, floors and carpeting
- Upholstery, curtains, drapes, laundry
- Drains, waste bins
- Toilets, sinks and showers
- Air treatment by misting

### **TO USE**

Dilute from 1 ounce per gallon of water for most applications, up to 10 ounces per gallon for portable toilets. Also works great as a neutral cleaner; dilute 2 to 4 ounces per gallon of water.

**See label for complete directions and use only as directed.**

### **SPECIFICATION DATA**

Available Sizes - 12/1Q, 4/1G  
Color - Clear Green  
Foaming - Controlled  
Viscosity - Thin  
Flammable - Yes  
Specific Gravity - .987

Physical State - Liquid  
Fragrance - Floral  
Free Rinsing - Yes  
Phosphates - None  
Biodegradable - Yes  
pH [undiluted] - 2.0
