

Part Number 1314

CRESENT

Antimicrobial Hand Soap

PHYSICAL CHARACTERISTICS

Appearance	Pink
Odor	Cherry Almond
pH	7.0
Solubility in Water	Complete

DESCRIPTION

CRESCENT Liquid Hand Soap is a superior yet economical, all-purpose hand cleaner containing synthetic cleaning agents balanced with glycerin and pure coconut oil, so hands stay soft even with repeated use. It produces abundant lather in hard or soft water and attacks stubborn soils, like grease, ink and carbon. It rinses cleanly.

CRESCENT Liquid Hand Soap's has innate germ-killing powers augmented by the antimicrobial agent 4 Chloro 3,5 Xylenol (PCMX). It is concentrated enough to sustain dilution of up to 50% and still clean effectively. The product is completely biodegradable and is non-toxic.

The reduction of microorganisms on hands is dependent on proper Hand Hygiene.

Wet your hands with clean, running water (warm or cold), turn off the tap, and apply soap. Lather your hands by rubbing them together with the soap. Be sure to lather the backs of your hands, between your fingers, and under your nails. Scrub your hands for at least 20 seconds. Rinse your hands well under clean, running water. Dry your hands using a clean towel or air dry them.
