

LIQUID MACHINE DISHWASH

CONCENTRATED DETERGENT

Designed for commercial automatic dish-washing machines that use automated chemical injection dispensers. Performs best in high solids water and will operate in all conditions of temperature and solids. Low viscosity and stability in all storage and use conditions are great features. It also works in other cleaning applications that require low/no foam, pressure, easy rinsing and alkalinity.

FEATURES

- Concentrated, liquid
- Breaks down and dissolves greasy soils
- Stable liquid
- Versatile heavy duty
- Non-foaming formula
- Free rinsing
- Easy to see red color

RELATED BENEFITS

- For institutional automatic warewash
- Quick, complete removal
- Does not separate or lose strength
- Performs in all water conditions
- Improves efficiencies
- No streaks or spots
- Easy check for dispenser supply tubes

AREAS OF USE

- Hospitals, health care facilities
- Restaurants, cafeterias
- Hotels, motels, resorts
- Schools, child care centers
- Institutional facilities

TO USE

Use 1/3 to 1/2 ounce for each rack. **See label for complete directions and use only as directed.**

SPECIFICATION DATA
