

SUPER BACTI-MAS

Enzyme Based Cleaner

Product #1670

DESCRIPTION

SUPER BACTI-MAS is a multi-species blend of non-pathogenic microorganisms designed to naturally digest organic matter and grease. This product is a revolutionary breakthrough for eliminating grease and odor. Economical to use with billions of organisms available, this is the best in odor, grease and organic waste control.

FEATURES

A blend of bacteria genetically grown specifically for degrading and digesting fat, oil, grease and odor causing organic materials. This unique formulation produces pentosanase which modifies the surface activity of grease and other organics preventing build up in sewer and drain lines. Certified free of Salmonella and E. Coli, non-polluting, non-pathogenic, non-acid, non-alkaline, and safe for use.

This amazing product is excellent at reducing suspended solids, sludge volumes and BOD with rapid bacteria replication.

SUPER BACTI-MAS eliminates organic odors such as urine in carpet, vomit, spoiled food, decomposed animals and waste receptacles.

APPLICATION

Consult the product label for full instructions.

For use as a carpet spotter, use 16 ounces per gallon of water.
For grease traps less than 20 gallons, use 4 - 12 ounces per day.
For use in laundry, dilute 32 ounces per gallon.
In recreational vehicles, use 2 ounces per gallon.
For drain lines, use 4 ounces for every 2 inches of pipe diameter.
To control odors, spray directly onto the odor source.

PHYSICAL CHARACTERISTICS

Appearance	Milky white liquid
Odor	Pleasant
pH	7.00
Specific Gravity	1.00
Solubility	100%
Stability	Safe 50 - 150°F
Flammability	None
Bio-degradable	Yes
Organism Count	406 billion per gallon
Enzymes Produced	Amalyase Dioxygenase Lipase Pentosanase Proteases (Alkaline and Non-Alkaline) Urease Bio-Surfactant

Certified Salmonella & E. Coli Free

MARKETS
