

NON-CAUSTIC – ALKALINE pH. SURFACTANTS, EMULSIFIERS, FOAM STABILIZERS, INDIGENOUS WATER SOFTENING AGENTS AND SPECIAL RINSE AGENTS COMBINE TO MAKE THIS AN EXCELLENT POWDERED CONCENTRATE.

Superior performance in hot or cold water. For use in pressure, steam cleaning equipment, or for manual cleaning. This detergent removes road film, bugs, and some tar deposits. Rinses freely and thoroughly. Safe for use on aluminum. Do not allow to dry on aluminum. Can also be used as a whitewall tire cleaner. Use hot or cold on concrete.

DIRECTIONS

Read Safety Datasheet before using this product.

For pressure washers: hot or cold water: mix a concentrate of up to one (1) pound per gallon of water. Apply this concentrate to soiled surfaces at a dilution ratio of one (1) gallon per fifty (50) gallons of water. This ratio may be adjusted to achieve optimum cleaning results as water hardness, water temperature and soil load and type will affect dilution ratio required for best results. Manual cleaning: use one (1) to (2) two ounces per gallon of water or soak in a solution of two (2) to six (6) ounces per gallon of water. Rinse thoroughly with potable water after washing. For best results do not allow to dry on vehicles.

PM-10 es un detergente concentrado para lavar carros, camiones y equipo pesado.

For Industrial and Commercial Use Only.
